Time Keeps Going

Chapter 1 by lightningstrikesannah (I'm back!)

I looked up at the clock and gasped. Today was the day.

And by the way, it wasn't just a normal clock.

It counted down to the day you met your soulmate.

Chapter 2 by -

Right now, the clock reads "0y, 0m, 0d, 3h, 21m, 09s", so I have 3 hours, 21 minutes, and 9 seconds to get ready to meet my soulmate. I jump out of bed, excited that the day is finally here. I've been waiting all my life, just like everyone has, but today is the day, and I can't wait.

I jump in the shower and wash thoroughly, I don't want to smell bad for my mate. I then quickly dry off, braid my hair, and put on my makeup. I have to look just right for this day.

I then space out and think about what my future-husband will be like. "He'll be a perfect match", I reassure myself, because nobody has ever divorced their match before. The government always gets it right. I mean, they give only one baby girl and only one baby boy a date that is the same, and there are also rumors that say they breed us to be a perfect match, but nevermind that! I get to meet him today!
